

SRLC USA Brand Guide

Visual identity for srcusa.org.

Color Palette

Aligned with the Astrum Brand Identity Harmonisation study and Gurudev's direction for SRLC to use purple and lavender "whisper colors," distinct from SRMD's earth tones. Warm orange accent honors the flame.

Voice and Tone

One voice, four tones matched to page type. Per Brand Voice Guidelines (Content Reference Pack).

Tone	Used on	Feels like
Inspiring	Homepage, cause pages, Mission Africa	Warm, purposeful, human-centered
Credible	About, financials, annual reports	Clear, precise, evidence-backed
Community	Volunteer, events, US state pages	Inclusive, active, local
Elevated	Legacy Giving, HNWI, corporate	Sophisticated, dignified, trusted

Key Copy Rules

Rule	Guideline
Impact specificity	"\$XX provides essential medicines for one month" not "support healthcare". Dollar amounts pending finance sign-off
Named stories over stats	Lead with a named beneficiary and outcome, support with scale. Only stories from the approved roster; never invent one
American donor framing	Universal human dignity. Translate cultural specificity into shared values. Spiritual content lives only on the Our Inspiration page
Active CTAs	"Fund a child's education" not "Learn more." Every page ends with a clear next action
Dollar-to-outcome	Required on every cause page and donation touchpoint
"Love and Care"	Always spelled out. Never ampersand. Never abbreviate
Names and campaigns	Center, never Centre. Classroom of Change, never Back2School. The ten Care names exactly as approved. QC, never QA. No em dashes anywhere
